

MHRD – AICTE Teacher Training Module Examination

Information Bulletin

About NITTT

With rapidly changing technological scenario in view of ever-increasing globalization as well as competitiveness in modern times, the role of technical education in economic development has become very important but challenging. Also, as a consequence of intensive technological developments, the concerns of sustainability, environmental degradation, resource depletion and inclusive growth have become more relevant. The need for well-qualified engineers/ professionals is more critical for the solution of numerous complex problems that affect the quality of life of everyone, everywhere. In view of the above, the concerns for making the relevant educational curricula and training to teachers relevant to the global needs is becoming a top priority.

Looking into the present needs, the AICTE has framed a policy in the name of “National Initiative for Technical Teachers Training (NITTT)”. This brings out character building of teachers, important facets of new teaching methodology and innovative means of transferring knowledge, in building a better educational ecosystem.

NITTTTR has been identified as the implementing agency, for this policy. The Ministry of Human Resource Development, established four NITTTTR, way back in the year 1964 with the main aim of transforming technical education of our country. With this vision, institute transformed the technical education towards the need based research in the area of engineering education.

In the phase 1, the eight online courses have been prepared and it is applicable to the new inductee teachers and teachers who are in service but less than five years of teaching experience.

The contents are uploaded in the National MOOC platform, SWAYAM and the participants are encouraged to study and get transformed. The unique aspect of this policy is to incorporate Mentor based training and Industrial training in addition to this eight modules.
